	8.5 - 9	39
	9.5 - 10	40
	10.5 - 11	41
	11.5 - 12	42

THREE PHASE STABILITY

IMPACT

The Soft EVA & Gel Pad provide cushioning and the propulsion element induces forward motion

MIDSTANCE

The firmer Propulsion element cradles the heel and provides better balance by guiding the foot forward in a neutral position to keep the foot, ankle, knee and hips, in alignment.

TOE-OFF

The Control plate reduces forefoot pressures for an efficient transition into the next stride

“Healthy shoes for the feet”... Xelero has been shown to help several common foot related issues including Plantar fasciitis, Metatarsalgia, Hallux rigidus, Ankle Pain, Knee Pain, and lower back pain due to misalignment issues.
